

Public Workshop

to review Metro Vancouver's proposed regulation for non-road diesel machines

To improve air quality and reduce climate change impacts in the region, Metro Vancouver is proposing a regulation to reduce diesel emissions from non-road diesel machines such as excavators, backhoes, forklifts and loaders.

Metro Vancouver invites you to a workshop to discuss the proposed Non-Road Diesel Engine Initiative which includes a regulation and an incentive fund to help machine owners comply with the regulation.

Tuesday, November 24, 2009
